

Wax'N'Fire 041

Document date
2021.07.16

Description

Wax'N'Fire 041 is multifunctional fat based on soybean oil.

Label Ingredient Statement

Partially hydrogenated Soy bean wax

Application

Main application area is for candle production.

Specification

Slip melting point (°C)	38-44
Iodine value Hanus	58-68
Free Fatty Acid as Oleic (%)	0,15 max
Peroxide Value (meq/kg)	1,0 max

Colour Lovibond

Colour 5 1/14" Yellow	10 max
Colour 5 1/14" Red	1,5 max

Storage information

When stored in stainless steel tanks at temperatures of 10°C above melting point product is stable for approx. 3 weeks.

When stored in sealed original boxes at ambient temperature product is stable for approx. 2 years
